Mario Tazza
— 1961 —

Every company is grounded on some values that become a solid foundation of the activities they undertake. Their consistent implementation may bring success or direct to failure. Where we will be in a few dozen years depends on the decisions we make here and now.

That was the idea we had 30 years ago when we were starting our business. 1989 is a memorable year when Poland gained freedom, both politically and economically. Back then, Florentyna had a 100 square meter warehouse and a staff of four. The beginnings required sacrifice from the employees and ourselves. Stubbornness, consistency and an excellent team of ambitious people are unquestionably the values that have allowed us to succeed.

Today, the company employs more than 500 people and already the second generation is involved in its development. Such a fresh wave, a youthful perspective and dynamic reacting to global needs are necessary to develop subsequent levels in the company's development. But there is certain value that has always been and will be the solid foundation of our business. It's the people. Specifically, we mean both the employees and our loyal customers.

The company's work can be well compared to a clockwork. Every link is equally important here. If any is missing, the whole system is affected. Thus, when introducing the new generation, we keep emphasizing that every cooperation is based primarily on loyalty - the value that only occurs among people, never systems.

This catalog is the result of the work of many people having a common objective: to provide products facilitating everyday household activities. The purpose of all this is to ensure that the users of our brands can enjoy life everyday.

"The most important thing in life is to have dreams and convert them into goals as soon as possible. And goals must always be accomplished."

Mariusz Matecki

"At the start of any cooperation a man must communicate with another man.. That's why we always talk, listen and, most importantly, hear the needs of our customers."

Jarosław Matecki

PORCELAIN

Bellissima

with gold ornaments

"If necessity is the mother of invention, what would you call a love that appears unexpectedly and blows the heat not only in the heart but also in the head? It's inspiration."

Mario Tazza, 1961

The inspiration for the creation of porcelain tableware was the brand creator's journey to Italy. Embraced by the hospitality of a cafe owner and her individual approach to each guest, he decided to start creating dishes, thanks to which each of us will be able to compose a special and unique tableware. Full of finesse, elegance, modern accents and, above all, Italian spirit.

What distinguishes Mario Tazza products?

Durability and endurance to serve you for years, creating a family tradition. Lightness, minimalism, elegance to keep a part of the Italian style. Resistance to damage, so that there is no end to family toasts and sharing meals. Original decorations, because each of us likes to own unique things.

From now on, let each family meal be an amazing experience!
